

Residential Rates & Bulk Items

Potts & Monger Sanitation, Inc.

Potts & Monger Sanitation specializes in residential garbage removal. We offer you an easy, inexpensive service, whether you need only a single can once a month, 5 cans weekly, or an 8-yard container at your apartment complex, we have a solution for you. Give us a try.

Potts & Monger is proud to announce its new residential Toter service. This service allows you to use large rolling containers to replace your heavy cans, which makes getting your garbage to the curb much easier.

Residential Rates

Potts & Monger's residential garbage collection service includes support for single-family residents, as well as yardage containers for multi-family dwellings.

Extra Garbage:

Your monthly rate pays for the collection of a set volume of garbage and unlimited recycling set out according to your solid waste guidelines.

Any garbage that does not fit easily in your cart when the lid is closed must be paid for separately. The lid of your cart must be closed to prevent litter.

To schedule the collection of extra garbage, simply contact our office anytime prior to your day of service. At that time, we will take your order, process your payment, and schedule your pickup.

Bulk Items

You just had a yard sale, but couldn't unload that old couch or mattress. What can you do? Potts & Monger Sanitation can pick up most bulky household items. Here is a list of acceptable items that we can take and our disposal fees:
